AERO COOL™

INSTANT COLD PACK

- MDD Compliant
- UKCA Marked

The **AeroCool™ Instant Ice Pack** is designed for immediate use in any emergency where cold therapy treatment is required. It is highly effective in the treatment of children's injuries such as burns and scalds. AeroCool™ Instant Ice Packs are a practical alternative to re-usable hot and cold packs and is ready for immediate use. This product is packaged in a durable wrap which is easy to handle and patient-friendly while being tough enough to withstand the rigours of transportation and storage.

The AeroCool™ Instant Ice Pack is an excellent addition to the hot and cold treatment range and provides users with a cost-effective, cold therapy treatment option. Suitable for treating swelling. It is ideal for relieving pain. Individual packs contain one AeroCool™ Cold Pack suitable for relieving muscle pain and reduce swelling.
