WASHPROOF PLASTERS

- MDD Compliant
- UKCA Marked

A-Care Economy Washproof Plasters provide an effective solution for minor injuries and wounds that require extra-wide coverage. Strong, secure and durable, each plaster is designed to withstand regular handwashing while helping to protect the wound area. The flexible material stretches, bends and conforms to body contours for reliable adhesion, helping to prevent lifting and edge curling while keeping the wound clean and comfortable. Hypoallergenic and latex-free, these plasters are suitable for a wide range of patients, including those with sensitive skin or allergies. Each A-Care washproof plaster also features a soft, cushioned, non-adherent pad for added comfort, cleanliness and easy removal.
