

BRITISH STANDARD WORKPLACE FIRST AID KIT REFILL

SMALL

BS-SR

The use of kit refills ensures that your first aid provision is up-to-date and complete without the need to check individual components. We ensure your kit has all the correct equipment you need. Easy refills are available for your British Standards Small First Aid Kit. Refills provide a fast and efficient way to replenish first aid kits. With this solution, you can always ensure that your workplace first aid kit is fully stocked with first aid consumables that are relevant and in date. Conforms to BS 8599-1:2019.
