

BURNS GEL DRESSING

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

The AeroBurn™ Sterile Gel Dressing is a premium product designed for the treatment of facial burns and scalds. The dressing is classified as sterile and hypoallergenic to ensure the burn wound is clean and protected against infection. The AeroBurn™ Sterile Face Burn Gel Dressing offers immediate and rapid cooling to the burn area by dissipating the heat associated with burns and reducing inflammation. This helps prevent further tissue damage whilst relieving pain and aiding the healing process. Enriched with cooling gel, the AeroBurn™ Gel formula is proven to speed up the recovery of skin wounds and aid faster rejuvenation than just water. This specialist burns face mask uses a SupaSorb™ Non-Woven Carrier, which has superior thermodynamics when compared to any foam carrier. AeroBurn™ is a market-leading burn relief range that contains an assortment of products and dressings to help treat burns, scalds and sunburn in a variety of places.
