

## CLEANSING WIPES AND SWABS

### ALCOHOL AND ALCOHOL FREE

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

Our AeroWipe™ Saline Cleansing Wipes and swabs offer a sterile cleaning solution for first aiders who are cleaning around cuts and grazes or prior injection. Their moist nature ensures a cooling sensation is applied when surface wounds are being cleaned. Fully compliant with BS 8599-1:2011, these wipes are an essential for any first aid kit. As well as offering gentle application, especially around sore surface wounds, the AeroWipe™ Cleansing Wipes are tear resistant. Against paper products, they also offer superior absorption for bleeding and weeping wounds or cleaning skin eliminating all the bacteria. Each AeroWipe™ Cleansing Wipe is individually wrapped to ensure it maintains its sterile nature until opened. These are ideal for treating and cleaning surface wounds on both adults and children, providing a very gentle option where surface wounds may feel tender. After use, AeroWipe™ Cleansing Wipes should be discarded.
