

CONFORMING BANDAGE

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

AeroForm™ Conforming Bandage offers a premium quality first aid solution. It is recommended to assist in securing pads and dressings in place, particularly for the arms and legs. Thanks to its conforming qualities, it provides comfortable wearing for users. Designed to conform to body contours, it is suitable to be used as a retention dressing. Utilised alongside AeroSwab™ gauze or swabs, it prevents any padding from slipping, causing the wound to be exposed. If an individual self applies the bandage, it is produced to stick to itself as the dressing is overlapped and wrapped around the pad. This design produces a simplified solution for users as no awkward tape or uncomfortable safety pins are required. The weave design of the AeroForm™ Conforming Bandage makes application easy. The AeroForm™ Conforming Bandage is classed as non-sterile. Packs contain 12 AeroForm™ Conforming Bandages, suitable for securing dressings in place.
