

## Eye Wash

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

AeroWash™ Eye Wash is an essential addition to any comprehensive first aid kit, particularly in environments where frequent eye care is a priority. Designed with safety and effectiveness in mind, this eye wash solution supports the thorough cleaning of the eyes by gently flushing out foreign objects and debris. Each bottle contains a sterile 0.9% Sodium Chloride solution, which provides optimal care for the eyes, ensuring that contaminants are safely and effectively removed. The sterile nature of the solution minimizes the risk of infection while offering a soothing and reliable method for eye irrigation. AeroWash™ is ideal for use in various settings, including industrial workplaces, laboratories, and other areas where eye safety and quick response to eye injuries are crucial. Its inclusion in first aid kits ensures that you are well-prepared to address eye-related emergencies with confidence.
