

FOX VENTED CHEST SEAL

- ✓ MDR Compliant
- ✓ UKCA Marked & CE Marked

The Foxseal Vented Chest Seal is a cutting-edge medical device with a 360-degree hyper-vent system featuring 512 vents for effective air release and tension pneumothorax prevention. Trusted globally by EMS, paramedics, and military, it offers reliable performance on uneven surfaces and under extreme temperatures. The compact, foldable design with a re-seal tab ensures easy use and portability in first aid kits.
